- Pre-pay each shipment. We accept Visa, Mastercard, Discover, American Express
- A copy of mare's registration papers must be on file
- Shipping information must be on file including:
 1. Physical Address and telephone number for location to receive shipment
 2. Does Federal express deliver to address on Saturday?
 3. Will there be a hold placed on this Federal Express delivery?
(FedEx: 1-800-238-5535)
 4. If shipping counter to counter what is the closest airport?
 5. What airlines service this airport?
 6. Provide a contact name and phone number to receive airline information

Shipped Semen Procedure

1. When you first take your mare to your veterinarian or stallion stations contact Peak View Reproductive Services and let us know you are planning to start tracking your mares estrous cycle.
2. You or your veterinarian will contact us again:
 - a. When he/she **First Approximates The Date Of Ovulation**
 - b. When he/she **Wants Semen To Be Shipped**
3. Contact **Peak View Animal Hospital by 5pm Mountain Standard Time the afternoon prior to collection days (Mon/Wed/Fri)** to order semen.
 - For a Tuesday Delivery: Call in order Sunday by 5:00pm MST. Semen will be collected and shipped Monday. You will receive your shipment Tuesday.
 - For a Thursday Delivery: Call in order Tuesday by 5:00pm MST. Semen will be collected and shipped Wednesday. You will receive your shipment Thursday.
 - For a Saturday Delivery: Call in order on Thursday by 5:00pm MST. Semen will be collected and shipped on Friday. You will receive your shipment Saturday.

We recommend Federal Express Next Day Service as the best choice for shipping semen, however they do not pick up on Saturday or Sunday.

4. If using same day air service Peak View Animal Hospital must be contacted **by 12 noon MST the day prior to collection days (Mon/Wed/Fri) to order semen. Penalty fees apply to all cancelled same day air shipments.**
 - a. Call ahead to determine your airport accessibility and airline availability. We ship from the Colorado Springs Airport.

Prevent Problems with Shipments by Following These Recommendation:

5. If your shipment does not arrive call Peak View Animal Hospital for a tracking number
6. All Semen Orders must be placed by call (719)263-4321. **Orders not valid if place on answering machine or if received by fax or email.**
7. DO NOT OPEN YOUR SEMEN CONTAINER until your veterinarian is present and ready inseminate.
8. Each shipment contains paperwork from your breed association. This insemination report must be completed by the person performing the insemination. One copy must be sent to the breed association, one copy must be sent to Peak View Reproductive Services, keep one copy for your records. If we do not receive this report, breeding reports cannot be filed.
9. It is best to inseminate your mare as soon as possible after receipt of semen shipment and then again within 12 hours. Cooled Semen is best used in 24-48 hours. Semen loses its viability the longer it is stored after collection. Calculation of the 24 to 48 hour window begins at the time of collection, NOT the time you receive semen or inseminate your mare. DO NOT WARM SEMEN, your mare provides the best environment to warm the semen.
10. Use the entire contents of one syringe. All shipments will contain two (2) separate inseminations when available. All requests for the shipped semen will be filled as received and are subject to availability. If the second dose is not used, discard the semen and return the container. **Under no circumstances should the semen be used for any other mare, than the mare booked.**

If you choose to use Breeding Facilities' Equitainer, providing one is available, it must be returned using FedEx or UPS within four (4) working days. Equitainer must be insured for replacement value of \$300.00 on return shipping.

**The key to successful breeding your mare with transported cooled semen is very careful planning, management and coordination with the stallion manager.
Your questions are important. Please feel free to ask. (719)263-4321**
